Program Objectives

- Increase understanding of advances in diagnosis and treatment of breast cancer
- Develop an understanding of the role of palliative care & psychosocial distress in cancer patients
- Increase registrar awareness of the 2012 COC Program Data Standards changes and the impact on the registry.
- Expand knowledge of CSv2 data collection guidelines and resolve commonly asked questions or problems.
- Develop a better understanding of radiofrequency ablation, case selection, techniques and patient outcomes.
- Strengthen awareness of the quality of care in the treatment of bladder cancer.
- Increase awareness of the importance of collecting accurate race/ethnicity information in order to better understand who gets cancer and why.
- Develop an understanding of how biomarkers for lung cancer affect treatment selection and prognosis.
- Expand knowledge of gamma knife treatment criteria, technique and local control.
- Increase awareness of current childhood cancers outcomes.
~Continuing Education~

10 hours of continuing education have been requested from NCRA.
